**Bureau of Mines, General Survey Use**

1. Some time ago Dave Carleton, Liquid Fuels, Bureau of Mines, requested release to him of the General Surveys on Iraq and Algeria. Algeria had no sensitive coverage of intelligence and security and was released to Mr. Carleton. Iraq, however, presented difficulties.

25X1A9a [REDACTED] suggested this Survey be released to Mr. Carleton on a loan basis or access be granted to the volume here in Alcott Hall.

25X1A9a To mollify [REDACTED] I suggested to Mr. Carleton that the BuMines man come to Alcott Hall and use the Iraq General Survey. Carleton seemed to understand the security precautions and telephoned 9 August saying that Mr. Coling was the analyst writing for the NIS on Iraq.

2. Mr. Carleton was to call me and make arrangements for the visit whenever Mr. Coling was ready. When he calls,

25X1A9a [REDACTED] can transfer the call to you.
